

The Trust has submitted a reply In relation to the Village Green masterplan.

We ranked the top 5 priorities as:

Outdoor activity

Children's play equipment

Refurbished toilets

Improved amphitheatre

Larger picnic spaces

In the text field we submitted:

"The BCCT has surveyed the readers of its monthly e-news and the resounding response was increased use of this area for families. This includes improved facilities for adult and child physical activity and places to have lunch but also community events (like Rotary Christmas). While a loss of trees is not desired the strong voice of the residents is for better active use of this space. How to better integrate the Community Centre towards the Village green (perhaps an eating facility/verandah facing south into the Green) was also suggested."
